

Feral Cat Neutering Program of Luzerne County, Inc.

1078 Wyoming Avenue, #145

Wyoming, PA 18644.

A non profit trap, neuter, release program of stray cat colonies.

Feral Cat Neutering Program is a non-profit, 501(C) (3) charitable organization. We are an organized group of volunteers dedicated to reducing the over whelming population of stray cats

Stray cats are humanely trapped and transported to our surgical facility. Our Veterinarians will test the cats for feline leukemia and AIDS and perform their spay/neuter surgery. They will be treated for ear mites and fleas. They will also receive a rabies vaccination prior to being returned back into their original cat colony.
